

Head-plate Flaws

Position 30 - "NW Corner Dot" – NG I & II (all states)

NW Corner Dot:
Distinct vertical NNW mark West of the NW corner of the frame 10.1mm NW (@ 40°) of the 3rd rayon, 15mm NW of the Queen's left eye.

"NW Corner Dot"
NG I & II (all states): Position 30

Position 30 - "Clusters of flaws W of King's Curl" – NG I (4) – II (8)

Clusters of flaws West of King's Curl: Two horizontal clusters of dots 3mm and 3.5mm West of the King's curl.

"Clusters of flaws W of King's Curl"
NG I (4) – II (8): Position 30

Position 31 - "Dot NW of King's Curl" - NG I (4) – II (8)

Dot NW of King's Curl:
Large dot 5.5mm NW of the King's curl near the "PA" of COMPANY.

"Dot NW of King's Curl"
NG I (4) – II (8): Position 31

Head-plate Flaws

Position 32 - "Dot on King's Nose" – TE I (3) – II (5)

Dot on King's Nose:
Dot on the King's nose
0.6mm NW of his left
nostril.

"Dot on King's Nose"
TE I (3) – II (5): Position 32

Position 32 - "Vertical Mark E of King's Collar" – NG II (6-8)

Vertical Mark East of King's Collar: Distinct heavy 0.3mm vertical mark 4.5mm East of the center of the King's collar.

"Vertical Mark E of King's Collar"
NG II (6-8): Position 32

Position 32 - "NE Flaw W of King's Curl" – NG II (8) Only

NE Flaw West of King's Curl: Large NE flaw about 4mm West of the King's curl.

"NE Flaw W of King's Curl"
NG II (8) Only: Position 32

Head-plate Flaws

Position 33 - "Kinked Scratch W of King's Collar" – NG I & II (all states)

Kinked Scratch West of King's Collar:

Peculiar kinked (vertical, then NE)
1mm (+) scratch
4.5mm West of the intersection of the King's collar and beard.

"Kinked Scratch W of King's Collar"
NG I & II (all states): Position 33

Position 34 - "Pseudo Gash in Queen's Ear" – TE I (2) – II (5)

Pseudo Gash in Queen's Ear: The so-called "Reversed Gash" in the Queen's right ear: a SW mark just NW of her ear orifice.

"Pseudo Gash in Queen's Ear"
TE I (2) – II (5): Position 34

Position 34 - "Scratch Through AFRICA" - NG I & II (all states)

Scratch Through AFRICA: Fine distinct 4.2mm scratch through the "FRIC" of AFRICA passing 4.5mm over the King's head.

"Scratch Through AFRICA"
NG I & II (all states): Position 34

Head-plate Flaws

Position 36 - "Rust Flaw" – MG I-II, SG I-III, HK I-III, & TE I & II (all states)

"Rust Flaw"

MG I – HK III: Position 36

"Rust Flaw & TE Scratches"

TE I & II (all states): Position 36

Rust Flaw: Corrosion over a 1mm area, 1mm to 2mm NE of the King's part. **TE:** Additional 1.5mm diagonal scratches over the rust flaw from 1.5mm to 2.5mm over the King's head.

Position 36 - "Four Dots East of 7th Rayon" – NG I (4) – II (8)

"Four Dots East of 7th Rayon"

NG I (4) – II (8): Position 36

Four Dots East of 7th Rayon: Configuration of 4 dots (3 in a SW pattern, the 4th opposite the center of the 3) from 3mm to 4mm East of the 7th rayon.

Position 37 - "Dots Around Queen" – NG I & II (all states)

"Dots Around Queen"

NG I & II (all states): Position 37

Dots Around Queen: (i) Large dot 1mm NW of the top of the 1st rayon, (ii) No Gash Roller Die (NGRD) Flaw: mark 4.8mm E of the top of the Queen's collar, and (iii) Large dot near the "R" of RHODESIA 7.3mm S (and E) of the Queen's right pearl (8.5mm S (and W) of her nostril).

Head-plate Flaws

Position 38 - "Three Flaws W of King's Mustache" – TE I (2) – II (5)

Three Flaws West of King's Mustache:

Three short vertical flaws 2.6mm, 2.8mm, and 3.4mm West of the King's mustache.

"Three Flaws W of King's Mustache"
TE I (2) – II (5): Position 38

Position 39 - "Dot Above King's 2nd Medal" – TE I (1-3)

Dot Above King's 2nd Medal: Dot between the vertical lines on the King's chest 0.8mm above his 2nd medal.

"Dot Above King's 2nd Medal"
TE I (1-3): Position 39

Position 39 - "Exclamation Flaw" – NG I (1) & NG I (2-4)

"Exclamation Flaw" (State 1)
NG I (1) only: Position 39

"Exclamation Flaw" (State 2)
NG I (2-4): Position 39

Exclamation Flaw: Small dot or a 0.4mm or a 0.7mm vertical mark over 11:30 on the EVC, 8.5mm NNE (at 70°) of the King's part. There are 4 states: (1) small distinct well formed dot only; (2) large 0.7mm exclamation mark.

Head-plate Flaws

Position 39 - "Exclamation Flaw" – NG II (5) & NG II (6-8)

"Exclamation Flaw" (State 3)
NG II (5): Position 39

"Exclamation Flaw" (State 4)
NG II (6-8): Position 39

Exclamation Flaw: (3) deformed dot with an embryonic tail; and (4) a much smaller 0.4mm exclamation mark or tail on a small dot.

Position 41 - "Dot E of King's Collar" – NG I (2) – II (5-8)

"Dot E of King's Collar"
NG I (2) – II (5-8): Position 41

"Dot E of King's Collar"
NG I (2) – II (5-8): Position 41

Dot East of King's Collar: Dot 6.5mm due East of the bottom of the King's collar. Starts out small, but clear, and becomes larger.

Position 42 - "Large Mark South of King's Aiguillette" – MG I-II, SG I-III, HK I-III, & TE (all)

"Large Mark South of King"
MG I – HK III: Position 42

"Large Mark South of King"
TE I & II (all states): Position 42

Large Mark South of King's Aiguillette: Distinct diagonal flaw below the "E" of RHODESIA, usually in the South margin, 5mm below the King's right shoulder.
