

Refugee and Internment Camp Cachets

These two types of camp have been grouped together as they both housed aliens but of different nationalities and under different conditions.

The Internment Camps were for German and Italians from their former colonies in Africa. The cachets are listed under their number (1 to 5) plus Norton which was a clearing camp for the internees as the other camps were closed down. The oval cachets for camps 3 to 5 are particularly scarce.

The three resettlement camps were for Polish Refugees and were situated at Rusape, Marandellas and Digglefold. Mail from all three camps is very scarce.
