OLD LIVINGSTONE

The real photo plc here provided both enlarged images. It was probably produced for Clarke by L.F. Moore - the chemist in the settlement. Clarke's card was sent at 1d plc rate to U.K. The official timetable states Livingstone P.O. 25th November 1904 and London December 17th.

Frederick J. Clarke (above) was the founder, in 1898, of the settlement of Old Livingstone Drift. It was situated 3 miles from the B.S.A.C. Controller's Camp. Clarke is photographed at his residence in 1904.
