

FORT VICTORIA "KILLER" CANCELLATIONS

The barred diamond (aka "KILLER") cancellation with letter "F" was allocated to the Fort Victoria Post Office in 1892 and was in regular use through until the end of 1894. Possibly due to wear, this cancelling device was supplemented with a new barred diamond but with the letter "E" in July 1894. Examples of this "E" cancellation have only been recorded for July and August 1894.

Footnote: The "Killer" cancellation was replaced with a Barred Oval Numeral Cancellation (826) from January 1895.
