

(REVISED) POSTAL ESTABLISHMENTS OF ZIMBABWE, 1980 TO 2025 – A CONCISE CHECKLIST

In RSCJ 309 (December 2025) we published an overview of Zimbabwe's postal services from its independence in 1980 to date. Here in Part Two, we present a revised checklist based on six collections (Narendhra Morar (UK), Dave Trathen (UK), Buster Schemper, Rob Burrett (Zimbabwe), Tony Banks (UK), Ian Menzies (Switzerland) with input from other members of the RSC, Terry Devine (UK) and Gordon Murray (Zimbabwe). We intend to amend this listing periodically as new information that comes to light or to correct any errors that may have crept in.

There are too few comprehensive collections of Zimbabwe postmarks to provide a definitive scarcity rating guide. Nonetheless, we offer a *rough and ready* scarcity guide based on known collections:

R: Rare – not seen

S: Scarce – rarely encountered

U: Uncommon – relatively difficult to find and

C: Common – easily obtained

Column 2 indicates the name of postal establishments. **Postal establishments marked with an asterisk (*) denote agencies open to the public in 2025 and still offering postal services.**

Column 3 indicates the **latest known status** (based on ZimPost listings from 2004, 2005, 2020 and 2025). Note that previous MTO designations used by Byrom, Barry and Hoyte are being phased out by ZimPost. More often than not they are replaced by 'Cross Counter' or 'Across Counter' (CC) and other designations such as CVIC (Container Village Information Centre) and DICs (District information Centres). **These new ZimPost franchises cannot properly be regarded as postal agencies:** some use traditional post office precincts, while others are based in nearby shipping containers. These new franchises offer internet services, parcel collection and money transfer facilities for the public.

Occasionally, Temporary Post Offices are set up for specific events (SPEs) and special cancels are used for a limited duration.

Footnotes:

Above: Cashel Valley store and former PO (photographed by Rob Burrett in 2024) ZimPost now has an establishment at Nhedziwa, situated about 12 kms away from the old post office.

Our checklist endeavours to locate postal agencies that have operated, albeit briefly, since Zimbabwe's independence in 1980. During our investigation, a number of unique cancels have been brought to our attention. For instance, a UZ University of Zimbabwe 19.09.01 PTC Zimbabwe (cancel shown below left, courtesy of Tony Banks) also an 'unnamed' 20JAN2017 cancel from Rob Burrett's collection. These items are of genuine philatelic importance, but cannot be considered as evidence of regular postal services.

Misspellings can prove misleading: MUDHINDU is mentioned by both Hoyte and Byrom. The 2025 AA map indicates that this location is now spelt MUDINO; postal services ceased in 1990. Confusingly, it is not unusual to find continued use of both old and new cancels a decade after the authorities changed the names: MUREWA appears as MREWA, CHIVU and CHIVHU are used on and off. Other interesting examples include: RUWANGA, RUWANGWA, RUANGWE (a Sub Post Office mentioned in ZimPost 2025 lists); also, SEKE, SEKI, SEKEE to name just a few.

In certain instances, we have been unable to obtain verifiable examples of such postmarks. Some locations (see below) appear to have used cancellers from nearby postal establishments and therefore do not appear in the main listing:

- Africa University – likely Mutare
- Baobab Hill – Hwange
- Marondera Women's Prison – recent information from ZimPost indicates that mail is once more operating: via Marondera, awaiting a new canceller.
- Meikles – Bulawayo
- Nkete – Nkulumane
- Sianundu – Binga
- Umtali Station - Umtali

If specific postmarks relating to the above are found, they will, of course, be moved to the main listing.

In RSC Journal 309, the saga of ST RUPERT'S post office (a postmark in Buster Schemper's possession) was mentioned. Though the opening of this office was planned for April 2025 (indeed, we have another recent Rob Burrett photo), the establishment is not yet open and therefore does not feature in this checklist.

Past research into the postal services of Zimbabwe can be sought in three RSC publications:

D.A. Byrom, *Post Offices of Rhodesia and Zimbabwe 1925 – 1999* (RSC publication, 2020) and *Zimbabwe Post offices and Postmarks, the First Two Decades* and Hal Hoyte, *South of the Zambezi* compiled with Jane Lashbrook (RSC publication, 2003). We have in our possession a photocopied *ZimPost* bulletin; it is entitled *Network of Zimbabwe's Postal Agencies, 2005*. In 2020, *ZimPost* published an online listing of postal establishments: this register https://www.zimpost.co.zw/post_locator indicates outlets province by province without distinguishing between POs and other franchises.

After protracted negotiations during September - October 2025, ZimPost regional officials shared their inventory of offices currently in operation; ongoing collaboration with the Philatelic Bureau in Harare is much appreciated.

It goes without saying that this checklist is a '*work in progress*': any further input from the philatelic fraternity will be welcomed and input updated regularly on the RSC website.

A multitude of cancellation types have been in use since independence – rectangular, square, machine, SECAP, single, double, or triple circle - these hint at a whole new area of study for Zimbabwe stamp collectors to research in the future. (Two attractive examples are shown below: Harare C.S.O 23 AUG 2002 and the Victoria Falls centenary cachet, courtesy of Narendhra Morar).

Ian Menzies and Narendhra Morar in collaboration with Buster Schemper and Tony Banks, Rob Burrett, Dave Trathen, Terry Devine, and Gordon Murray.
